Office—275 North Main street, next the Diamond House, Los Angeles, California.

All diseases of the respiratory organs treated by the most improved Medicated Inhalations, combined with proper constitutional remedies for the liver, stomach, blood, etc.

Nearly 60,000 cases successfully treated during the past 18 years for some form of head throat or lung troubles.

CHARLES WILLIAMS, of St. Paul, Minn., says: For ten years I was afflicted with catarrhal asthma. Dr. Williams, of Los Angeles, cured me in three months.

MRS. COL. MASON, Cincinnati, Ohio, says; I was afflicted with consumption for six years. My family physician ordered me to Southern California. I arrived October, 1883, but after remaining there for nine months was no better. I applied to Dr. Williams, who cured me in three months.

CHARLES SWARTZ, Columbus, Ohio, says: For eight years I was afflicted with scrofulous catarrh, and I employed as many doctors in as many years, all to no purpose; but Dr. Williams's inhalations cured me in sixteen weeks, so that I was enabled to return home a well man.

J. N. TRINKLE, Spadra, Cal., says: Dr. Williams cured me of catarrh of the head, throat and lungs in one month.

And hundreds of others from every State in the Union.

Our Eastern friends should not depend upon climatic influences alone, for herein lies the fatal mistake in many cases, as nearly every case requires positive medication, in order to become rid of the offending matter—the consolidated portion of the lungs—so as to give the climate an opportunity to heal them.

KUMYSS.

Milk Wine.

IS GETTING TO BE THE MAIN RELIANCE of the physician in all cases of debility in which prompt improvement of the general tone is imperative. Kumyss is the blandest and most easily digested food, and as such the best nourishment for a weak stomach; at the same time, through the process of fermentation which Kumyss undergoes, medicinal qualities are developed which we vainly look for in materia medica. In nausea, vomiting, extreme cases of dyspepsia, Kumyss acts like a charm, promptly relieving all the distressing symptoms of such cases. When the stomach rejects all else, Kumyss is retained and assimilated, affording the patient nourishment, strength and comfort, and, as a consequence, nervousness ceases and refreshing sleep follows. In scarlet, intermittant and typhoid fever Kumyss is the best diet. It satisfies thirst and hunger and allays the fever. It is also highly recommended in consumption as tonic and restorative. But not only in extreme cases should Kumyss be resorted to; it should be the chief remedy for a weak stomach.

The dyspeptic brain worker with a few glasses of Kumyss a day will improve his digestion, and nerve force. Ladies would be less nervous, more vigorous and healthier looking, if they should add to their daily diet a few glasses of Kumyss.

Manufactured and for sale only by

Office—Temple, Main and New High.

GEO. B. MCCLELLAN declined the Russian Mission.

AMID great excitement in Paris over the French defeat at Langson, the Ferry Cabinet resigned yesterday.

PROF. RASMUS B. ANDERSON, of the University of Wisconsin, nominated as Minister to Denmark, is a good appointment.

THOMAS J. JARVIS, appointed Minister to Brazil, has been Governor of North Carolina six years, and was a Confederate Brigadier.

ALEXANDER R. LAWTON, of Savannah, appointed Envoy Extraordinary and Minister Plenipotentiary to Russia, is a graduate of West Point and was Quartermaster General of the Confederacy.

WM. F. WHITE makes an argument in the San Francisco Examiner of the 29th to show that the Health Amendment is dead and cannot be submitted to the people either now or in 1886.

JUDGE FIELD's slate for California appointments is reported by a Californian now in Washington to be as follows: United States District Judge, Sam Wilson; Collector at San Francisco, Jesse D. Carr; Surveyor of Customs, M. Brooks; Collector at Wilmington, Risley (Who is Risley?); Inspector of Postal Routes, Thos. M. Cook; Naval Officer, Stuart Taylor. These names are accompanied with the request that no man who participated in the Stockton convention be honored with an appointment.

THE dispatches again represent that Gen. Grant's condition is most critical. He has apparently come to the end of life and his last moments are cheered by the kindest expressions of sincere regard from all parts of the country and from all classes of people. It must have warmed the undaunted heart of the grand old hero when he received the resolutions passed unanimously by the Legislature of Arkansas, expressing regret at his sickness and a hope that he might recover. It was a gracious action coming from men, most of whom were lately in arms against him. General Grant's place in history is already secure. He will stand as the greatest military commander of all time. He has been under fire oftener, and has fought and won more battles than any other general of this or any other age. Well may the eyes of a great nation turn toward him with affectionate greeting, for we may never look upon his like again.

Found Dead By the Road.

An unknown Irishman, 45 or 50 years of age, was found dead on the edge of a vineyard beside the S. P. R. R. track, near the Naud warehouse, yesterday. He had been groaning there all day, but the police were not notified until 7:30, when Officer Weatherman proceeded to the spot and found that the unfortunate had breathed his last. The body was removed to Albert Brown's morgue, and an inquest will probably be held to-day. The deceased was five feet eight inches tall and weighed 150 pounds. He wore a red moustache and short chin beard, and had long, thin hair on the back of his head, the front being bald, small blue eyes and light eye-brows, and was poorly dressed. His right eye was blacked, and there was a "mouse" on the right cheek, but neither bruise was recent. There were no indications of violent death.

Another Break by the Slow Freight.

The Express charges that the TIMES' reporters are nothing if not technical, and cites as an instance that in the case of the illness of a little girl, the name given for the disease was that used by the medical profession instead of the common title. Perhaps it is, after all, better to be technical than incorrect, as an Express reporter always is, when he is in his normal condition. In this instance, the overwise writer quotes the TIMES as saying that the daughter of J. W. Davies was afflicted, etc., when, as a matter of fact, the TIMES gave the correct name, Mr. J. W. Davis. For stupid blunders, especially in names, the Express has a most unenviable reputation.

Grand Benefit Concert.

The best resident musical artists of Los Angeles are to unite in giving the accomplished soprano, Miss O. T. Kimball, a benefit concert at Turnverein Hall, Wednesday evening, April 8. Those who have listened to her beautiful voice may be surprised that she has received less than four weeks' salary for her services at the Palm Garden, and must feel that this with the sympathy aroused for her during her severe illness ought to insure for her a rousing benefit.

Accident.

An accident occurred on San Fernando street yesterday afternoon, which will cost somebody a few dollars. A Wheeler and Wilson sewing machine wagon, with a horse attached, was run into by a passing coal wagon and one front wheel and the shaft of the lighter vehicle smashed into kindling wood. The accident was purely the result of careless driving on the part of the teamster, as he was not in the least crowded for room in passing the other wagon.

A New Appointment.

H. E. Cornwall, long connected with the Southern Pacific Railroad, has been appointed Traveling Agent of the Atlantic and Pacific Fast Freight Line, with headquarters in this city. The Atlantic and Pacific Railroad will land freight in this city from any point in the East as cheaply and promptly as any other road. They will land Los Angeles oranges in Chicago in eight days from shipment.

Slipped Through.

The trial of Miss Leland, one of the women captured in Saturday night's Sonoratown raid, took place last night before the Mayor. Proper evidence had not been secured against her, several persons who had volunteered their services becoming suddenly ignorant. On motion of Assistant City Attorney Kelly the case was therefore dismissed for want of evidence; and the woman's attorney, J. C. Morgan, went out into the hall and kicked up his heels and roared like a schoolboy.

Benefit Concert.

The Unity Quartet of this city—Miss Anne Wiseman, Soprano; Miss Ida Wiseman, Contralto; A. L. Jeffries, tenor, and W. C. Stone, basso—will give a concert at Union hall, Downey, to-night, for the benefit of the M. E. Church organ fund. A pleasant time is anticipated.

Church Dedication.

The Presbyterian church at San Pedro was dedicated Sunday by Rev. Dr. Fackler, who organized the mission a year ago. Nine new members were received. The church cost $1,100, of which $700 was raised in San Pedro. The balance came from the Presbyterian extension fund.

Golden Cargoes.

The Southern Pacific Railroad has shipped from this point since the beginning of the present orange season, up to and including Sunday, 364 cars of oranges. All these have gone to Eastern points. Agent L. E. Mosher states that as nearly as he can gather, there will probably be as many more shipped before the end of the season.

The dairymen in the vicinity of Guadalupe, Santa Barbara county, are still agitating the question of building a narrow-gauge railroad from that place to Pismo wharf.

GENERAL GRANT.

Probability that He Will Soon Die.

HIS CONDITION UP TILL 4 A. M.

Chances of His Choking to Death—He Receives the News With His Accustomed Stolidity.

NEW YORK, March 30.—General Grant was astir early this morning. He breakfasted, and at 11 o'clock the following bulletin was procured from Dr. Douglas: "The General was visited at 11 p. m. by Drs. Shrady and Douglas. The afternoon has been a quiet one, with periods of slumber alternately upon the bed and in his easy chair. As the time of the night visit arrived the General became apprehensive that the symptoms of the preceding evening might be renewed. He requested that Dr. Douglas be sent for. His apprehension was allayed by the employment of the same means as the night before with success, but the General preferred to remain in his chair so as to avoid the possibility of their recurrence from a recumbent position. His throat was attended to again at 2 a. m. The General had altogether a comparatively comfortable night.

NEW YORK, March 30.—Mark Twain, who is interested in the firm which is publishing General Grant's book, called at Grant's house in a coupe. He alighted from the carriage, and was met at the foot of the steps by a servant, who told him of the General's condition. Twain did not enter the house. The rumor on the street now is that Dr. Douglas states the General could not live twenty-four hours.

NOT SO STRONG.

At 4:30 p. m. Dr. Douglass returned to General Grant's home, and after being with the General about fifteen minutes issued the following bulletin: "General Grant is free from pain and takes his liquid food at regular intervals and as well as usual. He is not as strong and is showing more feebleness in body."

Between 8 and 9 o'clock the following message was sent from the house of General Grant to Schuyler Crosby, 1730 H street, Washington: "My father is suffering less than he was yesterday, but is still very weak." (Signed) Mrs. Sartoris. Crosby is ex-governor of Montana. At 8 p. m. Rev. Howard Henderson, delegate from the Newark, N. J., conference, called at the house with the resolutions of sympathy and hope passed by the conference. He was told the General was very weak. At 9 p. m., Mr. Purrington, counsel for U. S. Grant Jr., was admitted to the house. He carried a volume and black satchel. On leaving he told an inquirer he could speak of nothing he knew of within.

CURIOUS PEOPLE.

NEW YORK, March 30—Prompted by curiosity many people strolled through Sixty-sixth street during the afternoon, stopping in front of General Grant's house to gaze at the building. The shades of the front parlor windows were lowered all day. The inner blings of the General's sleeping room, which shut with slats, were open about three o'clock. The General's wife stood for some minutes at the window on the third floor and after looking for some time at the watchers below drew down the shade and closed the shutters. The curtains in the General's library or study were rolled up all day, and the ladies of the household were several times seen in the room. Harrison, the General's personal attendant, once came out to mail papers and letters at Sixty-sixth street and Madison avenue. A watcher inquired as to the General's condition. "He is no better, I fear," was the reply. "If you break your leg and it pains you very much you know it's broken, but even the pain is less for the time. The break is there all the same. The General has felt easier to-day, but I fear really is no better." Liveried messengers rang the bell at short intervals throughout the day. Personal messages of sympathy and inquiry are constantly coming from friends and interested persons in the city and out of it. A gentleman who called at 4 o'clock with extraordinary anxiety to see Colonel Fred. Grant or Colonel Badeau was told the members of the family must deny themselves to all. "These are our imperative instructions," said the servant at the door. At 4:15 Dr. Douglas returned to the house, after a brief absence. After being within half an hour he re-entered his carriage to visit another patient. The Doctor was asked if he thought the end would come during the night. In answer he said: "I think not, but the General is now passing through a stage incident to the disease, and frankly I cannot tell if the end will come to night. The General is growing weaker and weaker." These words were spoken without reserve and carried conviction to their hearers, which none of the bulletins had done. Dr. Douglas returned from his calls after absence about hour. He had come back to remain all night. Dr. Shrady soon joined him for the same purpose.

FEARS OF CHOKING TO DEATH.

At 6 p. m. Romero, Mexican Minister called at the house. His stay was short. When asked on Fifth Avenue about the patient and outlook, he said: "Of course no one can foretell with certainty. The disease until recently was within the power of the doctors, but now has gone quite beyond them. General may live ten and he may die in two hours. I fear he is going to choke to death. If the disease reaches an artery the danger of choking is increased and death by that means becomes almost inevitable. Members of the family are now at the General's bedside. The doctors are there, too, but they keep back as much as possible. I fear that the General will choke to death. It's too bad."

In response to an inquiry, Doctors Douglas and Shrady put out the following bulletin: At this moment, 7 p. m., General Grant is very quiet. His temperature and pulse are about normal. He has taken his liquid food regularly and well, and in the usual quantity. He is more silent than usual, and has made no exertion of any kind to-day. He gives the impression of being weaker, which is not indicated by his pulse.

9:20 p. m.—No change in the condition of General Grant. He is somewhat weaker, if anything. Temperature and pulse nominal. He has taken liquid food in the usual quantity to-day.

10:15 p. m.—General Grant is somewhat easier than at last report. He continues very weak.

At 4 p. m. Reverend John P. Newman and Senator Leland Stanford, of California, gained entrance. When ascending the steps Dr. Newman said that when he left the General at 7 o'clock last evening the patient was sitting up, but was very weak. The clergyman did not anticipate speedy death. General Adam Badeau, General Grant's former military secretary, is an inmate of Grant's residence. On reliable authority it is stated that General Grant has recently expressed a desire that General Badeau should become his literary executor. The family has had a policeman stationed before the house to prevent further ringing of the bell and to keep away all inquirers.

At 9:50 this dispatch was sent to Colonel F. S. Dent, Washington: "Easy, but very weak." Signed F. D. Grant.

At 10:10 U. S. Grant, jr., on leaving his father's house said: "Father feels very badly. There's nothing more for me to say."

At 10:35 p. m. Dr. Douglas stated that General Grant was feeling a little better.

At 11:45 Senator J. B. Chaffee left the Grant residence. He said the General had just been put to bed and that as compared with his condition twenty-four hours ago the General was better. When asked if the physician considered the patient out of danger, Mr. Chaffee replied he could not say that such was the case, but that his present condition was more favorable.

At 11:15 Dr. Douglas and Col. Grant left the house for the night, it being considered necessary for only Dr. Shrady to remain. Dr. Douglas said the General had just retired and was very comfortable. A little morphine was given to induce sleep. The General has been improving all day up to the present, and the betterment had continued all evening. He had been chatty and bright, conversing with his family and physicians. His pulse and temperature were very nearly normal. He had slept five hours within twenty-four. At midnight the vestabule doors were locked and within the next hour the lights were extinguished, except one in the library and one on the top floor.

THE DANGER GREAT.

NEW YORK, March 31, 2:45 a. m.—At 1:45 an effort was made to get a bulletin concerning the condition of General Grant, but the reporters were unable to gain admission to the house, and no one inside would come out. As the house remains dark, as stated in earlier dispatches, it is not thought any change has taken place in the condition of the General.

The Tribune of to-day will say: "General Grant has expressed himself as being entirely in his physicians hands, and said he would do whatever was suggested by them. Nothing whatever is kept from him in regard to his condition, and he was informed of its seriousness and probable termination. He received the statements that there was an indication of a speedy end without a change of expression, but did not say anything about his feelings. He has known for some time that the disease was sure to kill, and is ready at any time to go." Dr. Douglas says: "The General has no appetite, but he eats when food is brought to him. The feature of the day was his great weakness. He is growing weaker and weaker. I do not know whether he fears the recurrence of spasms in his throat or not. He has not said anything about it. That was one of the changes incident to the progress of the disease." Minister Romero said late to-night: "As soon as the disease reaches an artery it will create hemorrhage, and as he is so weak he cannot expectorate the blood out it will choke him to death. He cannot endure another attack like Saturday night. The family fear the worst and keep near his bedside, although as much out of sight as possible. There is a great swelling on the side of his face."

The World of to-day will say: Mark Twain called at the house between 12 and 1 o'clock. He was the only visitor outside of relatives of the family admitted. In order to avoid the inconvenience of answering the bell, a card basket was suspended from the door knob and numerous callers took the hint and left cards. Col. Fred and Jesse Grant remained with their father all day. He talked to them at times, but conversation seemed to weary him. The General's wife scarcely left the room. She stole out at intervals in order that he would not see her weeping. A member of the Grant household, in conversation with a World reporter, said: "General Grant never doubted he was dying. He knows the progress of the disease as well as the physicians, and awaits the final summons with the stolidity for which he is noted."

NEW YORK, March 30.—Dr. Shrady, consulting physician, thinks General Grant might rally from the present attack and live some time. The recent disturbance was the result of trouble in the head and not from an aggravated form of the disease.

NEW YORK, 4 a. m., March 31.—An Associated Press reporter just saw Dr. Shrady, in charge of General Grant tonight, and learned the following facts: At midnight Dr. Shrady made applications to General Grant's throat and an anodyne was administered by Dr. Douglass, who then left for his home and Dr. Shrady remained. Soon after midnight, General Grant slept quietly in his bed from that time until 1:30, when he arose and sat in his easy chair and there slept peaceably for a time. His breathing was easy and he did not complain of any disagreeable feeling in his throat. At this hour (4 a. m.) all is quiet about General Grant's house, a solitary gleam of light being seen in the library. No one entered or departed since Douglas left the house.

RIEL'S REBELLION.

Troops Marching to the Canadian Border to Suppress It.

TORONTO, Ontario, March 30.—Never in the history of Toronto has been such intense excitement shown as was this morning. Orders had been given for troops to parade at 10 o'clock in heavy marching order; but long before that hour the people filled all the street approaches. At 11:30 the doors of the drill shed were thrown open and the Grenadiers Contingent marched out, preceded by their band playing "The Girl I Left Behind Me,"—the Queen's Own, following, headed by a bugle band. Immediately on their appearance ringing cheers went up from the crowd along the route, and ladies waved their handkerchiefs. Along King street the wildest excitement prevailed, the cheering being continuous. At Union station, about 10,000 people had assembled. The train left at 12:30 p. m. for the west. The two Contingents number 580 men. The report that the Deputy Adjutant General has received orders to call out the remainder of the Queen's Own, and Grenadiers, lacks confirmation, but it is generally believed such orders will come shortly.

Parlament was prorogued this afternoon.

HAMILTON, Ontario, March 30.—Two companies of the Thirteenth batallion have been ordered in readiness to proceed northwest.

OTTAWA, March 30.—It is all bustle and excitement in the militia department to-day, preparing for the dispatch of various corps to the Northwest. The sharpshooters organized by Captain Todd, of the Governor General's Foot Guards, met this morning at the drill hall, but owing to lack of means of transportation the company will not leave until Wednesday.

OTTAWA, March 30.—In the House of Commons to-day Ives thought to much attention was being paid to the Northwest. He said that in the United States a border outbreak was quite a common occurrence, but Congress paid little attention to such matters. Aztoon rebuked the utterances of Ives who, he said, felt more concern in the success of some Northwest speculations than in the safety of the poor settlers on the plains who were in danger from the Indians.

The rebellion started by Riel has gained greater dimensions by the rising of Indians in sympathy with it. News came from Que Appelle to-day that the Indians on the reserves on File Hills, had arisen in arms and killed the farm instructor there, numbering in all about 500. Three companies of rifles and portions of a field battery went from Que Appelle station to Fort Que Appelle. Advices have been received from there. The Free Press received the following from Battleford: "We are in imminent danger from Indians in this vicinity. Chief Pound Maker has gone into open rebellion and put instructor and agent at defiance. The Indians have left other reserves and are concentrating in large numbers about Battleford. It is estimated there are at least 500 Indians, and more coming in a short time. Several of them have come into town threatening to burn it and take possession of the barracks and stores. All women and children have been hurried into the barracks, and everything is being done to put the barracks in the best possible condition for defence to protect the helpless. All the men have been enrolled for service, and arms and ammunition issued them. We will be able to raise a force of fully 200 men for defence. Several houses in town were broken into last night and rifled. A few half-breeds who live about town have gone to the hills, ostensibly to be out of the way, but it is pretty certain they will join the Indians and incite them to violence, when the worst is feared. The Indians will not remain long inactive and may descend on the town at any moment and seize all stores to provide themselves with provisions. There will likely be a general pow-wow of Indians to-morrow, when they will make their demands. It is known the whites will protect their lives and property to the last; but owing to the superior numbers of the Indians the position is most critical. Nearly all the police have been withdrawn to Prince Albert and the supply of arms is limited here. We hope for the best." No word has been received at Winnipeg from Riel's vicinity or from Prince Albert. Operations cannot be undertaken by the troops until a force arrives from the East. Volunteer battalions are rapidly enrolling here.

THE AFGHAN QUESTION.

Hopes that the Affair May be Settled Peacefully.

LONDON, March 30.—In the House of Commons this afternoon the Marquis of Hartington, Secretary of War, said that the last advices the Government had received from St. Petersburg were to the effect that a peaceful solution of the Russo-Afghan question was more promising than at any time since the difficulty arose. Additional extensive orders have been sent to Chicago meat packing establishments. It was impossible for English firms to compete with Americans. The reports that hundreds of tons of American meat had been found putrid were, he said, untrue.

LONDON, March 30.—In the House of Commons Huntington stated that it would be prejudicial to the public interests to explain the negotiation with Russia. The latest from St. Petersburg strengthens the hope that a satisfactory solution of the difficulty has been reached. Concerning the military preparations, Hartington said England was under certain obligation to the Ameer of Afghanistan. The government thought it advisable to render ourselves able to fulfil our obligations if occasion arose. Fitz Maurice, the Under Foreign Secretary, said he was not yet aware of the exact contents of the latest St. Petersburg dispatches, but understood they contemplated an early meeting of the boundary commission.

The Queen, accompanied by Princess Beatrice, left Windsor Castle Saturday afternoon on a journey to Aix-Les-Baines, France.

PORTSMOUTH, ENGLAND, March 30.—The Bacchante is ordered to be ready to sail at a moment's notice. Twenty-five gunboats and thirty-six torpedo boats are ready for their crews.

ST. PETERSBURG, March 30.—General Deschewinitz has informed Degiers that Germany desires peace, and would not refuse to mediate between England and Russia, if requested to do so. It is reported the Czar recently told General Deschewinitz he had the best hopes for a peaceful settlement.

PROSPECTS OF PEACE.

LONDON, March 30.—It is reported to-day in newspaper circles that the prospects for a peaceful solution to the Russian-Afghan question has been greatly improved during the past twelve hours.

RUSSIAN CRUISERS FOR THE PACIFIC.

SAN FRANCISCO, March 30.—Count Olarovsky, the Russian Consul in this city, states that two Russian cruisers have left the Mediterranean for this port. Their object in coming to this coast is to do as much damage as possible to the English merchant marine and British possessions in case war between the two countries is declared.

THE CHINESE WAR.

The French Defeated at Langson on Friday.

RESIGNATION OF THE FERRY MINISTRY.

General Negrier Wounded—The French Losses Heavy—Scenes in the Chamber of Deputies.

PARIS, March 30.—The excitement over the French defeat at Langson is intense. The feeling against the government is so strong that an outbreak is feared. It is reported that France has officially declared war. This, with fears of a serious riot and the downfall of the ministry, caused a panic on the Bourse. All the radical newspapers request impeachment of the ministers. Rochefort demands the head of the French Premier, Ferry, for the many blunders in Tonquin.

PARIS, March 30.—General Negrier, who was wounded in Friday's engagement at Langson, has been promoted to be a General of Division. The newspapers generally urge the country to act with energy and coolness. It is expected of all men at such a crisis that party feeling and prejudices should sink into insignificance and there should be unanimity of sentiment in demanding that a general national effort be put forth to relieve the army in Tonquin. Orders have been issued directing the immediate mobilization of all the fourth battalions of infantry. The government has decided to ask for volunteers from each regiment and to call for 50,000 maritime conscripts. It is reported that General Negrier died from wounds received in the Langson battle.

LONDON, March 30.—Dispatches from Paris says President Grevy presided at the Council Ministers to-day. He insisted on immediate action being taken for a prompt and vigorous prosecution of the war with China. The Cabinet decided on two division of troops to be comanded by four Brigadier Generals, for immediate service in Tonquin; also to send 100,000 men to reinforce Admiral Courbet.

LONDON, March 30.—A special from Paris gives the following account of the opening scenes of the meeting of the Chamber of Deputies to-day: "Long before the hour for the convening of the Chamber, the streets in the vicinity were packed with crowds of excited men. It soon became evident trouble was brewing for the government. A strong force of military was on hand to prevent violence and preserve order in the Chambers. Notwithstanding this precaution, the galleries were crowded with people, who plainly showed their irritation over the French defeat at Langson by keeping up a noisy discussion and hurling denunciatory epithets at the various members of the Cabinet and their supporters as they entered the Chamber.

When Jules Ferry, premier, arose to announce the decission of the Cabinet Council this morning, he was loudly hissed by the audience in the galleries. He barely finished his declaration when a number of Deputies of the Right sprang to their feet, yelling, "Down with the wretch!" while above the din could be heard the voice of Clemenceau, as he fairly screamed, "Traitors." It was some time before order was restored, and had it not been for the presence of troops there is hardly a doubt but that violence would have been done. During this scene in the Chamber the crowd outside became a howling mob and made several attempts to pass the guard in order to gain the side of the building, but they were kept back by the determined attitude of the military."

LONDON, March 30.—A Paris dispatch to the Exchange Telegraph Company states that war with China will be officially declared to-day. Fifty thousand reinforcements have been forwarded, and the army ordered to march upon Pekin. It is expected that Admiral Courbet will bombard Canton. Figaro states that the French killed and wounded in the fight at Langson was 1200. Some papers favor impeaching the Ministry.

LONDON, March 30.—A correspondent of the Times at Paris says much agitation is caused by news from Tonquin. The Algerian troops have been ordered to Tonquin.

FORTY MILLION FRANCS WANTED.

PARIS, March 30.—Prior to a vote on the motion to appoint a committee on credit, Ferry read yesterday's dispatches regarding the Langson affair. He added that the retreat of the French has been effected in perfect order. The troops found themselves confronted by Chinese forces whose numbers it had been impossible to foresee. The French generals have been obliged to re-enter the Red River delta and maintain the defensive. The measures already taken to reinforce the French troops in Tonquin would not suffice. It was necessary to avenge the Langson check for the honor of France. He therefore demanded a credit of 40,000,000 francs, and he proposed a separate vote on this credit from that upon the ministerial question. Ferry was frequently interrupted. Clemenceau approved the credit, but condemned the policy of the government and demanded its overthrow. Duval and Ribot declared they would be ready to vote any sacrifices when the ministry was overthrown. They reproached the cabinet for concealing the truth. The result of the vote on Ferry's motion was received with loud applause.

HONG KONG, March 30.—The auxilliary volunteer torpedo flotilla has been organized here. Sixty steam launches, all ready for service, will compose the flotilla. The Chinese Government has given Li Hung Chang power to negotiate with Japan and settle the question and dispute regarding Corea.

CHINESE ADVANCING.

PARIS, March 30.—The losses by General Negrier's forces are now estimated at 1500 men. General Negrier was wounded in the breast by a bullet, and one of his aides-de-camp, Colonel Berge, received a bullet wound in the head.

The Gaulois says one-fourth of the whole effective French force at Langson was left on the battle-field. One hundred thousand Chinese troops are advancing on Chu, and threaten to destroy the French forces there before there is a chance of their being reinforced. General Giovenilli is entrenched at Hu Dohan. He is also in a critical position being surrounded and his line of retreat cut off by 12,000 black flags.

A Cabinet Minister's fall was never more ignominious than that of Ferry. He was hooted and branded as a liar and traitor. The President made no attempt to stop the use of these epithets. Frequent cries of "turn him out" were directed against the Prime Minister, and the greatest uproar prevailed throughout the sitting. After the resignation of the Ferry ministry President Grevy asked Henry Brisson, President of the Chamber of Deputies, to form a new Cabinet. Brisson declined. The President then asked De Freycinot to form a Cabinet. He asked twenty-four hours to reply. At 10 to-night rentes were quoted at 71 francs 7 centimes.

PARIS, March 30.—The Chinese forces gained a victory over the French at Langson, Friday. They carried the key of the position and entrenchment. The French troops retreated beyond Dong Dong. They are falling back on the Long Koi. The French loss in men and guns is unknown. The Chinese force is estimated at 50,000 strong. They menace the French lines of communication with the south.

PARIS, March 30.—It is generally expected that DeFreycenet, at present Senator, or Ribort, the great French jurist and now member of the Chamber of Deputies, will be called upon to form a new ministry. It is also believed that Waddington, the present French Ambassador, will be tendered the office of Minister of Foreign Affairs in place of Ferry; and that Leon Say, the great political economist, will be asked to accept as Post-Minister of Finance in the new Cabinet.

PARIS, March 30.—Large crowds surrounded the French Chambers all the afternoon, but up to 6 p. m. no hostile demonstration had been made.

NEW YORK, March 30.—A Herald's Paris special says: The Royalists feel certain that the only outcome of the present disaster to the French arms in Tonquin is the downfall of the Republic. Only three days ago Clemenceau was about to come to an understanding with M. Ferry to make up lists of Republican candidates in impending elections, and to make common cause with Ferry against the Royalists, but on learning of the disaster in Tonquin Clemenceau changed his mind completely. The situation is very critical, and it is impossible to say what may not take place during the next few days.

PARIS, March 30.—The vote against Ferry included the Republican Union, the Extreme Left and the Monarchists. No group appeared strong enough to insure a compact ministry. All sections are unanimous in the determination to prosecute the war to a successful issue. In the plan submitted by General Sewal and Admiral Peyron, and adopted by Ferry, it was proposed that 45,000 troops be sent to Tonquin, and that simultaneous advance be made on the Gate of China. Admiral Courbet was to attack Canton when the rainy season stopped operations. The Southern China expedition was to be sent against Pekin. The new Ministry will probably adopt this plan. The Figaro says that Ferry has appealed to his friends to gather to his support. He declared he would send 100,000 men to China if necessary.

He resigned and studied law at Savannah and engaged in the practice of his profession there. When the civil war broke out he entered the Confederate service as a Brigadier General and subsequently became Quartermaster General of the Confederacy. At the close of the war he returned to his practice at Savannah, and soon afterwards was appointed attorney for the Central Railroad and Banking Company of Georgia. He is described as a lawyer of distinction, of gentlemanly, quiet and affable manners.

Thomas J. Jarvis, nominated Minister to Brazil, served in the confederate army and was Governor of North Carolina six years. He is a son-in-law of Edwin Stevens, of Stevens battery fame.

George W. Merrill, of Nevada, nominated to be Minister Resident to the Hawaiian Islands, is a lawyer by profession, but is now private secretary to Senator Fair. He is well known here and generally esteemed.

A. M. Kelly, nominated Minister to Italy, is a lawyer in successful practice at Richmond, Va. Isaac Bell, Jr., nominated to be Minister to the Netherlands, is a wealthy citizen of Newport, R. I., and a prominent Democrat, and has several times been the Democratic candidate for Governor. He is a brother-in-law of James Gordon Bennett. He was the Democratic candidate for the United States Senate at the last senatorial election.

Frederick Paine, of Maryland, nominee for the Berlin Consul-Generalship, is editor of the Baltimore Correspondent, a German Democratic paper.

GENERAL MC'CLELLAN DECLINES.

SAN FRANCISCO, March 30.—The Examiner's Washington special says: On Thursday last Secretary Bayard sent a message to General McClellan, asking him to take the Russian mission. So many of our commercial interests would be involved in the event of war between England and Russia that the importance of this post just now is much increased, but General McClellan promptly replied by telegraph that he could not accept. It is explained that his business interests in New York wouldn't permit him to leave the country at present.

JOHN M'LEAN'S VICTORY.

WASHINGTON, March 30.—The appointment of Wm. Caldwell as Surveyor of the Port of Cincinnati is claimed as a victory for the Payne-McLean faction, he having been indorsed strongly by Senator Payne, who is said to have personally urged his nomination. His most formidable competitor for the place was Theodore Dodd Cook, who was a Pendleton man in the Senatorial contest a year ago, and who led the bolt against the McLean legislative ticket for Hamilton county in the State campaign of 1883, when the members of the Legislature which chose Mr. Payne were elected. Although Mr. Cook has been a life-long Democrat, and has effectively worked for that party, his action in bolting the ticket in 1883 was used against him by the Payne men in the contest for the Senatorship.

MINOR NOTES.

After the reading of the journal the Senate went into executive session, and when the doors were opened adjourned.

It is not expected there will be much decrease in the public debt for March. The receipts this month are up to the average, but the disbursements have been larger than usual. Payments on account of pensions alone amount to $9,000,000.

The President designated Assistant Secretary Fairchilds to act as Secretary of the Treasury in the absence of Secretary Manning, and Assistant Secretary Coon to act as Secretary in the absence of Secretary Manning and Assistant Secretary Fairchild.

The sentence of the Hazen court-martial is simply a reprimand and is not yet approved by the President.

Jussen, of Illinois, who was appointed Consul General at Vienna, is a brother-in-law of Carl Schurz.

MURDER AND SUICIDE.

A Husband Shoots His Wife and then Kills Himself.

SAN FRANCISCO, March 30.—A horrible murder and suicide occurred here last night. John E. Cain, a wealthy stock raiser of Colusa, who with his wife and child has been residing in this city, insisted on his wife going with him to Colusa county to live. His wife, who was in bad health, and the child suffering from an attack of diphtheria, refused to go. At her refusal he seized a Winchester rifle, fired three balls into his wife and then killed himself. His wife is still living this morning, but there is no hope of her recovery. Cain is described as a most penurious man.

It is said that the expenses consequent upon child's illness exasperated him and that he has been drinking heavily for some time past, but now he is dead and his wife unable to speak, and no one but the five-year-old child was present. It is impossible to obtain any account of what immediately occurred between Cain and his wife prior to the shooting.

Burns' Case.

SACRAMENTO, Cal., March 30.—Judge Van Fleet this afternoon ordered all the remaining indictments against Ex-Secretary of State D. M. Burns dismissed. The District Attorney had moved for such dismissal, but the motion was opposed by the Attorney General. The Judge said he regarded the case on which Burns had already been tried the strongest one, and that there was no possibility of conviction.

ENLARGED SHEET.

TUESDAY, MARCH 31, 1885.

The magnitude of agricultural progress and development in the United States as compared with that of many of the countries of Europe is astonishing to those who do not consider its cause, but it is easily explained when the ways and methods of agriculture in this country are compared with those of the countries of the Old World.

The inventive Yankee has brought his skill to bear upon the improvements in machinery and endowed his inventions with the power to supplement his own efforts with a dexterity many times greater than he would be able to command without them. He makes his machines do the work that it would require a vast multiplication of laborers to perform, and it is done not only more rapidly, but more effectively and thoroughly than the laborer would be able to perform it without the aid of machinery. The peasantry of many parts of Europe are ages behind the free laborers of America. The value of a republican civilization is shown in that it reaches down and lifts up all classes that make the life of the republic, dignifying labor, energizing and educating it, and giving to it that nobility which intelligence and inventive genius imparts.

Our various consular reports issued by the State Department give us glimpses of peasant life in other lands, that by contrast show the condition of the American laborer to be a most enviable one. A glimpse at some portions of Spain shows no advancement in the agricultural implements used by the ignorant peasantry to-day since the days of the Moors, four centuries ago.

A consul at Malaga writes: "I have been living in Spain nearly four years, and I have never seen a Spaniard use a spade or shovel. He uses a small round esperto basket, holding about one peck, laying the same on its side between and holding it in place with his feet, and with a hoe he rakes the dirt or soil into it; then laying down his hoe he carries the basketful of earth to where it is required. One American workman with a shovel and wheelbarrow can do more work in one day than two Spaniards with their baskets and hoes."

A few such facts as these are suggestive of the relations existing between American progress and American invention, as applied to labor. It is one of the great problems of our advancement which the laboring classes under other forms of government are glad to comprehend and understand. The ignorant peasant who is satisfied with a sharpened stick in the place of the gang plow of the American farmer has not waked up to a knowledge of the possibilities of life yet, and it will take generations to lift him up to the level of the men who cultivate the free soil of America to-day.

The real estate men report that never before in the history of this city were so many letters and inquiries being received from people in the East who desire to make their homes here. The indications are very strong that we shall receive this year the largest number of permanent settlers that any one year has given us, and as a rule they come with means to begin business or build a home.

Those who grow discouraged over the prospect of a dry season, and relax their efforts, waiting for better times, will be left behind in the rapid march that Southern California is surely making toward wealth and fame. We cannot afford to indulge in gloomy foreboding, but remembering the past, should look hopefully at the future.

When every visitor says that Los Angeles is the busiest town he has seen in a trip across the Continent, we have every reason to feel satisfied with the present outlook for still better times.

We are exceedingly gratified at the many kind expressions of approval from friends at Riverside and elsewhere, on account of the enterprise of the Times in giving so full and complete a report of the Riverside fair. We gave in all in the three issues of the Times about seven columns and the same in two issues of the Weekly Mirror, which has a wide circulation in the east, making altogether a fuller and more complete report than that given by any other paper either here or at Riverside. We have taken great pleasure in giving a fair and full report of one of the most successfl citrus fairs ever held in California, because we regard Riverside as an unusually wide awake and progressive community, and because the Times proposes to have all the news and to give it to our readers in the best possible shape.

The California botanical exhibit at New Orleans is receiving the attention of visitors to the Exposition. It affords a grand opportunity for those desiring it, to study the flora of the State, as it is most artistically arranged and much time and labor has been expended upon it. The plants of California present many new faces to Eastern botanists.

Switzerland, in studying the best method of suppressing intemperance, does not lean towards prohibition. She asserts the belief that the best remedy for drunkenness "is in the encouragement of the substitution of good cheap wines for spirits as a beverage," and this remedy she proposes trying.

California Democrats do not appear to be as actively on the hunt for offices at the National Capital as the faithful of the other States of the Union. But Cleveland's inclination appears to be towards the stay-at-homes, so the California Democracy may come out ahead yet.

Miss Cleveland is said to be a man-hater. But this hatred of the opposite sex is not a prominent characteristic of the President.

NEIGHBORHOOD NEWS.

COMPTON.

A NEWS BUDGET BOILED DOWN.

Correspondence of the Times.]

ONTARIO.

NOTES OF PROGRESS.

Correspondence of the Times.]

Ontario, March 21.—Visitors have been pouring in during the last few days. The San Antonio tunnel causes a genuine surprise to many, although experts have long been convinced that the development of water, some 300 inches, will be largely increased as soon as the tunnel strikes bedrock.

Mr. Niedecker is getting on famously with his winery, and is also putting a large portion of his canyon tract under cultivation this spring. The colonists generally are putting out a very considerable number of trees, and several new-comers are building residences on the tract.

Among the churches there is activity also. The Methodists had a mum social last night at the residence of the Hon. L. S. Dyar, and spent a most enjoyable evening.

The Rev. Mr. Ford has been busily engaged for some time in establishing the cause at this place.

Bishop Poole, of Japan, received this week a most beautiful piece of embroidery work from the residents of his diocese, framing an address of sympathy and desire for his speedy return to his charge. This exquisite needlework picture represents the Bishop's residence at Kobe, with the surrounding temples, foliage, etc., etc. It is executed in the highest style of Japanese art.

Our college building is nearly ready for roofing, and promises to be a very handsome structure when completed.

The many neat and substantial residences recently erected in Ontario add materially to the appearance of the tract.

A lodge of A. O. U. W. recently organized is flourishing.

Our sportsmen have challenged Pomona to a rabbit hunt, of which more anon. R.

ARTESIA.

PLANTING AND PROGRESS.

Correspondence of the Times.]

Artesia, March 23.—Artesia is not enjoying a boom like many places, but continues to go steady ahead.

Many of the farmers have already begun planting corn in spite of the dry weather. The numerous flowing wells of this section will be brought largely into use this season.

The chief attraction for the young people just now is the skating rink at Fulton Wells.

Mr. Sam Davis, who has been visiting relatives here, will soon return to his home in Michigan, pleased.

Rev. W. W. Bailey, pastor of the M. E. church, has been confined to his room for several days on account of a severe cold settling on the lungs.

The picnic at Long Beach on last Wednesday was a success; but it would be a good idea if some one would donate a few guide-boards to be placed on the different roads leading to that popular resort.

Rev. Wm. Crowhurst, State Lecturer of the Independent Order of Good Templars, lectured in the M. E. Church on last Monday and Tuesday evenings. Mr. Crowhurst is a fine speaker and the lectures were well attended. He will return in a few days and organize a lodge, having already secured the names of twenty-five as charter members. Score one for Artesia.

FLORENCE.

BRIEF VILLAGE NOTES.

Correspondence of the Times.]

Florence, March 26.—The weather has been threatening rain for some time past, and yet within two or three days sufficient has only fallen to lay the dust. The wind seems to flip around into the west and drives it all away.

A protracted meeting is being held at the M. E. Church this week.

Mr. Carter, a relative of Mr. Belieu, south of the Tajauta schoolhouse, who came here in poor health, has returned to his home in Oregon.

H. B. Abila, Deputy Assessor, is now extracting the truth from the property owners in Florence.

Another artesian well is now being bored on the Tanzy ranch.

Mr. and Mrs. John Willey celebrated their fifteenth anniversary or crystal wedding on last Tuesday evening in good country fashion. About fifty invited relatives and friends were present. On the next evening the party were taken completely by surprise upon having about sixty-five outsiders throng in upon them. J. F. C.

ANAHEIM.

IMMIGRATION ASSOCIATION FORMED—FIRE.

Correspondence of the Times.]

Anaheim, March 25.—At last something is about to be done to attract immigration to this section, and from present indications it is to be an earnest and concerted effort on the part of our citizens. Rooms are now being fitted up in the Anaheim Hotel to be used as offices of the Anaheim Immigration Association, an organization formed last week for the purpose of advertising Anaheim's advantages abroad. The society proposes to issue for distribution several thousand pamphlets descriptive of this section and bearing photographic illustrations of our leading public and private buildings, mills, depot buildings, etc. It is to be hoped that some good will come out of the organization of this society—something long needed here—and I will give you a more extended description of its proceedings when fairly under way.

The sociable at the house of Mrs. Yocum last night was well attended, there being between eighty and a hundred persons present. The musical programme was excellent, and the evening was thoroughly enjoyed. About $30 was netted.

Tuesday night at 9 o'clock it rained right smartly here, but by 9:30 it had cleared up again. The shower will refresh the drooping grain, but will not mature it. At Westminster and other places nearer the coast it rained not a drop.

Friday night a fire destroyed a stable belonging to Mrs. Boldt, on Centre street. The stable contained a lot of hay, farming utensils, grape crusher, etc., all of which were burned. A colt was also burned to death and a couple of horses injured severely. It is supposed that the fire was started by tramps.

Rev. Mr. Parker will continue his evening services at the Presbyterian church during this week.

Evergreen Council, A. L. H., have purchased an organ for their lodge room.

Prof. Drolzhagen has purchased a lot of turning apparatus and will open a turning school in the Stoppenbeck building.

The Anaheim Cornet Band have commenced practicing regularly. The members have become quite proficient.

Mr. Snow, of the oil wells, on Monday took a tank of his oil to Santa Ana for use in the furnace of the flouring mill, where he has put in a set of oil burners. He is now supplying both mills with crude oil for fuel, and it seems to give good satisfaction, and it has been demonstrated to be cheaper than other fuel. Julien.

PASADENA.

A QUIET WEEK AMONG THE ORANGE GROVES.

Correspondence of The Times.]

Pasadena, March 26.—Since your correspondent made his last raid on the orange orchards, and the result, as reported in last week's Times, got so mixed with the gossip from our good port-town, San Pedro, very little has come to pass in this region of too much sunshine. We have been praying for rain, lo, these many days, but thus far our faith has brought only an occasional shower which left no mark of its presence after the first wink of King Sol. Of course it is dry, but we have no occasion for much of the apprehension expressed by some of our croakers. Fruit promises well. Late-sown grain is suffering for moisture and will be cut short without rain, but because of one dry season it is folly to predict a collapse to our prosperity.

The new Episcopal chapel is nearly completed and will be a model of beauty. Much credit is due Rev. A. W. McNab, the rector in charge, for the success of this enterprise, and it is to be regretted that this highly esteemed gentleman will return to his former home in Canada this spring.

It is rumored that Pasadena is to have a new newspaper and that Los Angeles is to furnish the required brains and other minor material for such a scheme. If this rumor means anything we would take this occasion to remark that such an enterprise is not one of our wants just now. Pasadena has one of the best local newspapers in Southern California, and with its new proprietor and editor, Mr. C. A. Gardner, at the helm, there is no room in these parts for aspiring journalists.

There is a project on foot to dispose of the central school house and lot for business purposes, and erect a new school building in some more favorable location.

Wiley & Greely have purchased a lot at Long Beach and will erect a fine stable thereon at once. J. E. C.

TEJUNGA.

NEWS AND PERSONAL ITEMS.

Correspondence of the Times.]

Tejunga, March 24.—Mr. J. Shelley is spending a week at Covina.

Miss Mamie Lester is visiting at Pomona, San Gabriel and Los Angeles.

Mr. Cummins has been appointed Zanjero for the Water Company here, having come to California from Iowa a few days ago for his health.

The farmers have got down to earnest work, planting potatoes, corn and garden products. Viva.

Stocks and Bonds.

By Telegraph to The Times.

NEW YORK, March 30.—Governments, continue quiet and strong, with a further gain of ⅛ for 4½ per cents registered; others unchanged. Railways, quiet, and about steady for everything except Erie 2ds, which were heavier on pressure to sell. Stocks have been very dull all day and developed nothing of special interest except a weakness in Vanderbilts. The total sales were only 181,000 shares, the smallest business done since March 17th. Prices at opening were ⅛ to ½ lower than they closed on Saturday, except Lackawanna, which showed a slight gain, and from that time until later in the afternoon the general list was featureless. In the latter part of the last hour prices yielded a fraction, which was checked just at the close, leaving final quotations within ⅛ to ¾ of the lowest prices of the day in a majority of cases. Of transactions to-day, 24,000 shares were for Pacific Mail.

Exchange bills, very dull, but rates were advanced, following an announcement of a crisis in Paris, to $4.85; demand, $4.87.

Dr. Kellogg

—THE—

CELEBRATED & WORLD-RENOWNED

MAGNETIC HEALER,

From New York city, is now at the Pico House, and will remain there for a limited time, curing and healing the various complicated diseases to which the human frame is heir.

Dr. Kellogg has a world-wide reputation for his extraordinary cures of difficult and chronic cases.

He is the miracle of all mortal marvels, and one of the greatest wonders of the Nineteenth century, performing cures which equal, if not surpass, the old time miracles, causing the blind to see, the deaf to hear and the lame to walk.

CONSULTATION FREE, and one hour each day will be devoted expressly to the poor of this city, or those who are unable to procure their own medicine. They will be treated free of charge. The Doctor gives away more medicine than half the others sell. Consultations at office or by mail, free and invited. A friendly talk or opinion costs nothing. When inconvenient to visit the city for treatment, medicines sent by mail or express everywhere, securely packed, free from observation. Curable cases guaranteed; where doubt exists it is frankly stated. Hours 8 a. m. to 8 p. m. Sundays, 12 to 3.

Nervous Prostration, Debility, Mental and Physical Weakness, Mercurial and other Affections of Throat, Skin and Bones, Blood Impurities and Blood Poisoning, Skin Affections, Old Sores and Ulcers, Impediments to Marriage, Stunted Development, Rheumatism, Malaria. Especial attention to complicated, Difficult, severe and SURGICAL cases. Piles cured WITHOUT USING KNIFE.

Diseases from indiscretion, excess, exposure or indulgence, producing some of the following effects: Nervousness, Debility, Dimness of Sight, Perverted Vision, Defective Memory, Pimples on the Face, Aversion to Society of Females, Want of Pleasure in Life, Want of Ambition, Unfitness to Marry, Melancholy, Dyspepsia, Headache, Restlessness, Loss of Spirits, Pains in the Back, etc., are treated with unparalleled success, safely, privately.

Catarrh, Throat, Nose, Lung Diseases and ASTHMA. Liver Complaints.

It is self-evident that a physician paying particular attention to a class of cases attains great skill, and physicians in regular practice all over the country, knowing this, frequently recommend cases to this oldest office in America, where every known appliance is resorted to, and the proved good remedies of all ages and countries are used. A whole house is used for office purposes, and all are treated with skill in a respectful manner; and, knowing what to do, no experiments are made. On account of the great number of cases applying, the charges are kept low, often lower than is demanded by others. If you secure the skill and get a speedy and perfect life cure, that is the important matter. Leucorrhœa cured in four treatments. It is the most troublesome disease known to the female sex.

Cancer Cured without pain and speedily. No cutting done.

Tapeworm removed or no charge. Many persons suffer greatly from the effects of tapeworm who doctor for Dyspepsia, Indigestion, Nervous Prostration, Palpitation of the Heart and a Dry Cough, in consequence of the parasite irritating the throat.

THE SYMPTOMS OF TAPEWORM

Are characterized by restlessness at night, sickness of the stomach, vomiting, convulsions, epileptic fits, faintness, stupor, loss of memory, gnawing sensation in the stomach, pains in the side and back, dry cough, a voracious appetite at one time and a loathing of food at another, a choking sensation when lying down, disagreeable breath, face flushed, nose contracted, heaviness of the eyes, bad digestion, stomach bloated at times, emaciation of the body and great nervous debility and dizziness of the head. Some persons may have all the above symptoms while others only have a part of them, and some will have a tapeworm for a long time, and yet never pass any joints or pieces, which is the only positive evidence of its existence. During a residence of eight years in New York city he

Cured Over 6000 Patients,

A large portion of whom had previously been given over by ordinary practitioners as incurable. His system of treatment is peculiar to himself; by it the vital forces become equalized; no pain is caused; no poisonous medicine given, and no surgical operation performed. The most hopeless cases taken and cured after all else has failed.

CONSULTATION FREE.

Can take a tapeworm in two hours complete. Will prove to you, free of charge, as to whether you are afflicted with tapeworm or not. No charge for first lot of medicine.

Do not fail to visit Dr. Kellogg,

"The Wonder,"

After all others have failed to cure you.

The most obstinate diseases succumb to the Doctor's unlimited skill.

My diploma hangs on my office wall for inspection of patients. Patients will find the Doctor a gentleman, socially as well as professionally.

LOSING HIS KINGDOM.

Mr. Wells's Sixth Little Sermon to Little Ones.

On Sunday March 29, before the sermon, Mr. Wells said:

The text for the children to-day is in the fifth chapter of Daniel, and the fifth verse. Don't forget the place. It is in the Sunday school lesson for to-day. I have chosen it for that reason. "In the same hour came forth fingers of a man's hand and wrote upon the plaster of the wall; and the King saw part of the hand that wrote."

The whole chapter tells how a king LOST HIS KINGDOM.
He lost it through drinking wine. He was banqueting with his lords, a thousand of them, and drinking wine from vessels of gold and silver which he had taken from the Christian's temple. But while they were all drinking and making merry their enemy was digging a trench around the city walls, into which they were to turn the river that flowed through the heart of the city, and then march in through the former river bed. And while they were thus feasting and drinking and singing songs and making many noises, there came forth suddenly fingers, perhaps fiery fingers, and wrote on the plaster, and the King saw it, in the midst of his wine and revelry, saw it and was so terrified that he lost his strength and his knees shook so that they smote together. He called in frightened haste for his so-called wise men to explain the meaning of the writing. They failed, and Daniel was called, who at once told the King that the words meant that he had been weighed in the balance and found wanting, and his kingdom was to be taken from him and given to another.

Now, children, do you think there are any hands now-a-days writing on the walls? Is any one's kingdom being taken away because of drinking? Yes; because a man's kingdom is what he is—is his character—and many a man is losing his character and himself by drinking.

I've been told that in a beautiful part of the city there is a nice home, with walnut and orange trees and flowers and lemons and drives, all to be sold because the owner drinks liquors. Can a man drink walnut trees? Can he drink orange trees? Can he drink up his home? Yes; and a whole farm, or store and business, or himself. He loses his kingdom because he drinks too much.

Are there any hands on the wall, now-a-days? No; but there is one upon *men*, which all may read. I sat at a table, lately, in a restaurant, and near me sat a man who drank a whole bottle of wine. There was a very plain writing on his face. His nose was red, and his cheeks the color of beefsteak, and red lines everywhere. The writing said he would soon lose his kingdom.

And I saw a woman, one day, in the gutter. Her face was red and bloated, her clothes were soiled and covered with the dirt of the street. She had lost whatever of beauty had been hers; her womanly purity was gone: she was altogether unattractive. She had lost her beauty, her home, her friends—her kingdom.

A rich drunkard kept two monkeys for the amusement afforded by their antics. One day he called them upon the table and gave them wine to drink. Their drunken frolics were wonderfully funny. But soon the funny stage passed, and they tumbled off to the floor, where they fell to quarrelling and fighting. The owner saw this, and said it was no worse than men did. He was so much ashamed of himself that he gave up his intemperate habits and regained his kingdom.

A quiet old Quaker was sitting by a hotel fire, when a traveler came in and called for brandy and water, or hot water and brandy—how is it?—because he was cold, or for some other reason. He lifted a pair of colored glasses from his eyes, saying the eyes were so weak he was obliged to wear them. The Quaker said: "Friend, if thee would wear thy glasses over thy mouth, thy eyes would grow stronger."

Don't put this enemy into your mouths, or it will steal away your brains,—will take away your kingdom.

Detached sentences from Mr. Wells' sermon on Paul's thorn in the flesh.

Some have thought it was smallness of stature; others, imperfect speech, headache, neuralgia, and one solemnly avers that it was strabismus.

If we knew just what it was, our sympathy would be limited to the precise phase which we had experienced. If small stature, then I who am nearly six feet tall, could not appreciate it. If slow speech, then those who can express every idea with ease and fluency, and talk like musical poetry, could not sympathize with him.

Others have their thorns. Coleridge and DeQuincy were enslaved and their lives embittered by the opium habit. Carlyle was made more cynical by his great thorn, dyspepsia. Byron had a club foot; David and Peter were pricked by escapeless memory of sin; Luther was overwhelmed by despondency; the Earl of Chatham, Pitt, Chaucer, Robertson, Wesley, all had thorns sharp and lasting. [A few descriptive words were given of each.]

Sometimes the thorn is blot of birth, sure to come out when least wanted. Sometimes a bitter domestic life * * physical imperfection * * called pride * * deep and universal feeling, none the less poignant * * a pitiful disease, as we see in our brave and silent old general, pathetically and patiently waiting the end. Sometimes it is an unsatisfactory Christian life * * woman without the help of her husband in the training of children * * a generous heart without money to give * * like John Foster, the heart just aches to give expression to the pent up ideas * * * inherited appetite, reaching back into generations gone * * * base passions * * * irritable temper. A man once said to an acquaintance: "Why don't you just subdue that terrible temper of yours, once for all? Why don't you try it?" He answered: "Sir, I have tried, and am trying, twenty times more than you do, or will do, and am only a miserable old sinner yet."

Dr. Johnson said, the grace that would make John a saint, would hardly keep Peter from perdition.

Under the treble of laughter may be heard the bass of hidden sorrow.

* * * Many a woman, silently and patiently enduring, on no saint's calendar but God's.

* * * Athletic, ruddy-faced, religious enthusiasts, who always give the conversation a turn at right angles.

The Great Wilmot

is coming, and will open at the Third Street Skating Academy on Monday, April 6th, for one week. He is reputed to have the greatest capacity of any individual living to alone and single-handed delight and astonish audiences. His performances on the bicycle are wonderful and grand; he has been known as the great bicycle rider for years, and this season's tour, from Boston through every city of note across the continent to San Francisco, has been one series of grand successes. Unbounded enthusiasm, increasing to the end of every engagement, has greeted him everywhere. His exhibitions appear to defy all known laws of gravitation and equilibrium, while his gentlemanly, social appearance has won for him the esteem of admiring multitudes.

AMUSEMENTS.

VIENNA GARDEN.—Arlington, Girard & Wyatt's Minstrels have returned from their trip to San Bernardino, Riverside, etc. It was a successful venture, but they prefer Los Angeles next to San Francisco as a show town. This week they are giving a fine performance, consisting of ballads, sentimental and otherwise, by Dixon, who is considered one of the finest tenor singers on the coast; humorous sketches by Billy Arlington, who can't be beat in his line. General funny business is taken care of by Billy Courtright, the only "flooy flooy" man in the business. Eddy Girard is a team in himself, and he missed it in not taking Billy Emerson's offer to make the Australian trip, because Emerson seldom gets left. Girard is one of the best "all around" men in the business, and it is said that Emerson offered $150 a week and expenses, but he was wedded to California. Jim Post is another of the comical geniuses of the outfit, while Billy Arlington's mouth would cover a ten-acre lot, unless the boundaries were stretched. The performance throughout is chaste and enjoyable, and the wind-up—*Muldoon's Picnic*—is laughable in the extreme. All who want to spend an evening of real enjoyment should visit the minstrels.

A Flower Festival.

The ladies interested in establishing a woman's home in this city have decided to have a flower festival, beginning on Tuesday, the 14th of April, and continuing five days. It will be a sort of a rose congress, although other flowers will not be excluded, but welcomed. All sections of Southern California will be invited to send flowers for exhibition. It is likely that silver cups will be offered for the best exhibits of the several kinds of flowers. Aside from the pleasure and instruction that the flower-show will afford, the direct object of the ladies who have the management, is to make $1000 or more for the new home.

The Santa Barbara festivals, held in recent years, have been unqualified successes. Let all Southern California unite in making this flower-show the event of the year.

KELLOGG'S
Anti-Bilious Worm Wafers

REMOVE ALL KINDS OF WORMS (WILL not remove the head of the Tapeworm) without the aid of other remedies. They act as a mild cathartic, and are useful in regulating the bowels, for costiveness, indigestion, sour or weak stomach. The symptoms of stomach worms are: Foul tongue, eyes heavy and expressionless, dry, hacking cough, sallow complexion, dark and blue circles around the eyes, foul and disagreeable breath, constant picking of the nose, grinding of the teeth, and starting up with terror and fright during sleep, at times very feverish accompanied with great thirst, the cheeks flushed and then again as pale as death and white around the mouth, the belly hard and swollen, short, cramping pains in the stomach. These worms sometimes knot up in the throat, causing death by strangulation. The symptoms of Ascarides generally called seat, or pin worms, are noticed by an itching sensation of the lower end of the bowels or rectum. There are other kinds of worms that inhabit the human system, but their symptoms are similar to those above mentioned. Persons can be sure when their children have the above symptoms that they are troubled with worms, and that KELLOGG'S WORM WAFERS will expel them in all cases. Can be sent by mail on receipt of price. Price per package, $1.

SKULLS AND CROSSBONES.

We Have Reason to Say

HURRAH! HURRAH! HURRAH!

Another Success Scored.

THE PEOPLE ON OUR SIDE AGAIN.

We are rewarded by our patrons' approval and continued patronage. We have placed before the people of this city $8000 worth of bankrupt goods purchased from Davis, Haber & Co., being the

BANKRUPT STOCK

Of W. Alexander, of Monterey, Cal.

The success of this venture has taken the form of an ovation, and during the past week standing room was at a premium in our establishment. The havoc has been terrible and prices are broken, we fear, never to rise again.

WHAT JEALOUS MERCHANTS HAVE SAID.

Some say fortune has smiled upon us. Some say we are lucky. Others say, "It takes no smart person to do business where prices are sacrificed." Another lot have said nothing, but shook their heads knowingly.
But to all these scandal mongers we say: "The PEOPLE'S STORE shall and will never brook any interference with our mapped resolutions. We have the right to BUY GOODS AT 30 CENTS ON THE DOLLAR, and sell them as we please. We will, if we choose, give the people of Los Angeles goods at half price if we want to, and we defy the entire army of "two-price dealers" to oppose us. Your vile tongues can do us no harm, and we shall continue this slaughter of goods in spite of your dislike.
